

CHIJ (KATONG) PRIMARY PARENT VOLUNTEERS APPLICATION FORM

Dear Parents & Guardians

A very warm welcome to the CHIJ (Katong) Primary family !

As your daughters embark on this journey of their primary school education, you are invited to be closely involved too!

Our school offers us a platform to do so as **Parent Volunteers** (PVs). Over the years, numerous parents/guardians and daughters/wards have strengthened their bonds through a mutual understanding of school life, because we are a vital part of our daughters' growth and learning experiences in school. The primary school years are a valuable stage in their development when they need our guidance and still crave our presence in their lives. They also experience pride and joy when they see us helping their teachers with school activities and events.

Please do take a look at the attached sheet for the various areas in which you can assist. A wide variety of skills and experiences are required. Do also note the different levels of commitment expected; so whether you are a working parent or a homemaker, there IS an avenue for you to volunteer and create a positive influence not only to your child but others as well. As a matter of interest, we also have grandparents, sisters and godparents volunteering! This year, we have included a section for grandparents to volunteer if they would like to.

We look forward to your participation.

Central Parent Council
